

A SAFER WAY TO SHARE AND SAVE

Multiple users, each with their own space
Safe and secure in your own home,
4 terabytes of storage

Easy to Use

- Setup takes just minutes, and Apollo Cloud is accessible from any device.
- Quickly access personal content from anywhere with the Apollo Cloud App. Supports Time Machine backup without complicated settings!

Easy to Share

- Invite up to nine members to share Apollo Cloud with their own space to share digital content, perform Time Machine and PC backups, anyone use Apollo Cloud just like they own it!
- Each member can control what to share with members or whomever else they choose.

Private and Secure

- Apollo Cloud provides peace of mind knowing that all data is off the Web, safe and secure on a personal Cloud, with all transactions encrypted to safeguard your privacy.
- The first device with optimized hardware encryption support for the latest Time Machine on macOS Sierra - 2.5 times faster!*

Up to 4TB of storage

- 4TB of storage space with no recurring fees. With Apollo Cloud, save and share more than 440 hours of HD video, 220,000 photos and a half million songs!***
- Connect your USB drive and directly upload files and folders to Apollo Cloud with only one click.

* As of Oct. 2016

*** Calculation averages: HD video = 9GB/hour. 5 minutes MP3 = 0.007GB/title. 12 MP photo = 0.018 GB/photo.

Imagine being able to share really large files without having to download them first on your mobile device.

Using your Apollo Cloud app on your device allows you to remotely store and share any type of file. You can add members, who can then each have their own storage space on your Apollo Cloud. Each member has complete privacy and security from other members. The perfect solution for the family or a small business. The simple set-up and file management is performed from just one single app.

Apollo Cloud is a small, quiet appliance that allows you to privately and securely store your data. Manage and store your files from virtually any device; from anywhere in the world. Easily access up to 4TB without the fear of monthly recurring fees.
